Re: RCRA Inspection - Partial Return to Compliance  
Marymount University  
VAD040554214

Dear Mr. Bliven:

Thank you for your letter of March 12, 1998, providing information on measures taken to return Marymount to compliance with the Virginia Hazardous Waste Management Regulations (VHWMR).

The information provided in your letter is sufficient to return the facility to compliance for one of the two violations noted during the December 30, 1997 inspection. The following violation remains unresolved:

VHWMR § 6.4 requires all small quantity generators of hazardous waste to meet certain standards. The standards include: posting certain emergency information next to the facility telephone (§ 6.4.E.4.e.(2)); and ensuring that all employees are trained (§6.4.E.4.e.(3)).

Your letter did not indicate that the applicable standards have been met.

Mr. Bliven

Please take appropriate corrective actions to achieve compliance with the VHWMR. Please inform the Department of actions taken within 30 days of the date of this letter.

This notice is not an agency proceeding or determination which may be considered a case decision under the Administrative Process Act (Va. Code §§ 9-6.14:1, et seq.).

If you have any questions, please call me at (703) 583-3898.

Sincerely,

Jon D. Terry

Re: RCRA Inspection - Return to Compliance  
Marymount University Spout Run Campus - Vehicle Maintenance Facility  
Non-notifier

Dear Mr. Bliven:

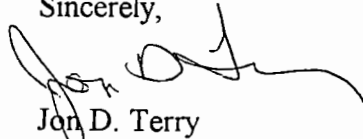

Thank you for your letter of March 12, 1998 providing information concerning corrective actions taken as a result of the RCRA compliance inspection conducted at your facility on December 30, 1997, by the Virginia Department of Environmental Quality.

Your letter contained sufficient information for the Department to return the Spout Run Campus to compliance with the Virginia Hazardous Waste Management Regulations (VHWMR)(9 VAC 20-60-10, et seq.) as a conditionally exempt small quantity generator (CESQG) of hazardous waste. Thank you for your cooperation.

Mr. Bliven
